

BIOGRAPHICAL SKETCH

Chris Brown

Assistant Professor

Department of Computer Science

College of Engineering

Virginia Tech

Email: dcbrown@vt.edu

Web: <https://chbrown13.github.io/>

Phone: 540-231-9176

Office: 4105 Gilbert

Address: 220 Gilbert Street, Blacksburg, VA 24061

(a) Education & Training

North Carolina State University	Raleigh, NC	Computer Science	Ph.D., 2015-2021
North Carolina State University	Raleigh, NC	Computer Science	MS, 2015-2017
Duke University	Durham, NC	Computer Science	B.S. <i>with distinction</i> , 2009-2013

(b) Research & Professional Experience

2021 – present	Assistant Professor, Virginia Tech
2020 – 2020	Instructor of Record, NC State
2018 – 2018	Quality Engineering Intern, Red Hat, Raleigh, NC
2017 – 2017	Quality Engineering Intern, Red Hat, Raleigh, NC
2016 – 2021	Graduate Research Assistant, NC State
2016 – 2016	Software Quality Engineering Intern, Blackbaud, Charleston, SC
2015 – 2016	Graduate Teaching Assistant, NC State
2013 – 2015	Python Developer, Bank of America, Charlotte, NC

(c) Selected Publications

Most closely related

1. J. Cusati and C. Brown, “From papers to progress: Rethinking knowledge accumulation in software engineering,” *arXiv preprint arXiv:2604.16208*, 2026.
2. C. Brown and J. Cusati, “Exploring the evidence-based se beliefs of generative ai tools,” in *2025 ACM/IEEE International Symposium on Empirical Software Engineering and Measurement (ESEM)*, pp. 386–392, 2025.
3. D. B. Bose, T. Chan, M. Trimble, and C. Brown, “Autopydep: A recommendation system for python dependency management utilizing graph-based analytics,” in *Proceedings of the 33rd ACM International Conference on the Foundations of Software Engineering, FSE Companion ’25*, (New York, NY, USA), p. 1035–1039, Association for Computing Machinery, 2025.
4. Y. B. Alebachew, M. Ko, and C. Brown, “Are we on the same page? examining developer perception alignment in open source code reviews,” in *Proceedings of the 29th International Conference on Evaluation and Assessment in Software Engineering, EASE ’25*, (New York, NY, USA), p. 57–67, Association for Computing Machinery, 2025.
5. C. Brown and C. Parnin, “Dark patterns for influencing developer behavior”, in *What Can CHI Do About Dark Patterns? Workshop*, Dark Patterns 2021, (Virtual), ACM, 2021.
6. Y. Berhanu Alebachew, H. Leary, S. Vaishampayan, and C. Brown, “Beyond code snippets: Benchmarking llms on repository-level question answering,” *To Appear: International Conference on Predictive Models and Data Analytics in Software Engineering (PROMISE)*, 2026.
